DRIVING

| WHAT IS LoCITY?

LoCITY is working to encourage the supply and uptake of ultra-low emission commercial vehicles and improve associated infrastructure. It offers a unique opportunity to ensure we have the right technology, the right vehicles and the right fuels to reduce the impact of commercial vehicles emissions.

LOCITY DRIVING IS DESIGNED TO RAISE ENVIRONMENTAL AWARENESS AMONG DRIVERS AND DEMONSTRATE THE BENEFITS OF FUEL-EFFICIENT DRIVING TECHNIQUES

Drivers will learn:

HOW TO BURN LESS FUEL - a different driving style can save fuel and CO₂ emissions

WHY YOU SHOULD CHECK YOUR VEHICLE - regular maintenance can reduce pollutants from exhaust, brake and tyre wear

WHY PLANNING YOUR JOURNEY WORKS BEST - find the most fuel efficient routes

ALTERNATIVES TO DIESEL VEHICLES - learn more about other fuels and energy sources

The course is classroom based, duration 7 hours. This course counts towards Driver CPC training hours

Book your LoCITY DRIVING training now

E-learning modules available for drivers and fleet managers:

LoCITY: Time to clean up – learning for drivers

LoCITY: Time to look ahead – learning for managers
